

SILVER JUBILEE PUBLICATION

of the

PARHVIEW SPORTS CLUB

We gratefully acknowledge the assistance of contributors and advertisers who made this publication possible.

. . . from the Chairman

T is indeed an honour to be the Chairman of the Parkview Sports Club at this very historic time in its life, and I am extremely grateful for the opportunity afforded me ro contribute to this Silver Jubilee publication.

Our Club has come a long way since the days of the old thatched club-house, when it consisted of only the four tennis courts, yet in this short space of time, it has progressed and developed into one of the finest Sports Clubs in Southern Africa. Achievement in any sphere does not take place without a tremendous amount of work and an equivalent amount of money. We were fortunate in having both in good measure, and we are indebted to those benefactors and workers whose enthusiasm and generosity were responsible for the fulfilment of what was once only an inspirarion.

Let us do honour to those people who were concerned with the foundation and up-

building of this Club and laboured to provide the facilities for the enjoyment and pleasure of all who wish to use them

It is however, well to remember that no matter how luxurious and commodious the amenities which have been provided are, they will be of no value without that spirit of

Mr. Freddy Reiff, who has been on the executive of the Club since 1948.

He was also Chairman of the Tennis Section for three years.

Club loyalty and good fellowship which we wish to foster amongst our members. This can only be achieved if we are all prepared to submerge our own selfish and egotistical inclinations and to forfeit our own pleasure

occasionally for the welfare and benefit of the Club as a whole. It is in this spirit that our members must frequent and use the Club to the full, not only for their sporting activities, because they should also be able to derive much pleasure by participating in the social life of the Club. Social contacts make a true club spirit and provide goodwill, cooperation and true friendship.

It was mainly for the purpose of inculcating this atmosphere amongst our youth that we initiated our Young Peoples section. We must continue our efforts in this section so as to provide interests that will be far more attractive and beneficial to them than juke-boxes and slot-machines. All the

energy and expense will be justified fully if we have success in our efforts in this direction, and produce not only men and women who are good at sport, but first class "Sportsmen" both on and off the fields of their sporting activities. All arrangements for the building of the swimming bath and paddling pool

(continued on Page Seven)

having now been completed, the next project to receive attention will be a sports field for this very purpose.

This will complete our schemes for constructional development, and we can then enter into a period of consolidation. Not only must we consolidate our financial position, but it is most important that we build up solidly, on the foundations which have been so well laid in the past, a communal institution which will continue to thrive and maintain the enviable position it now holds among the leading sporting and social centres in this City. With the

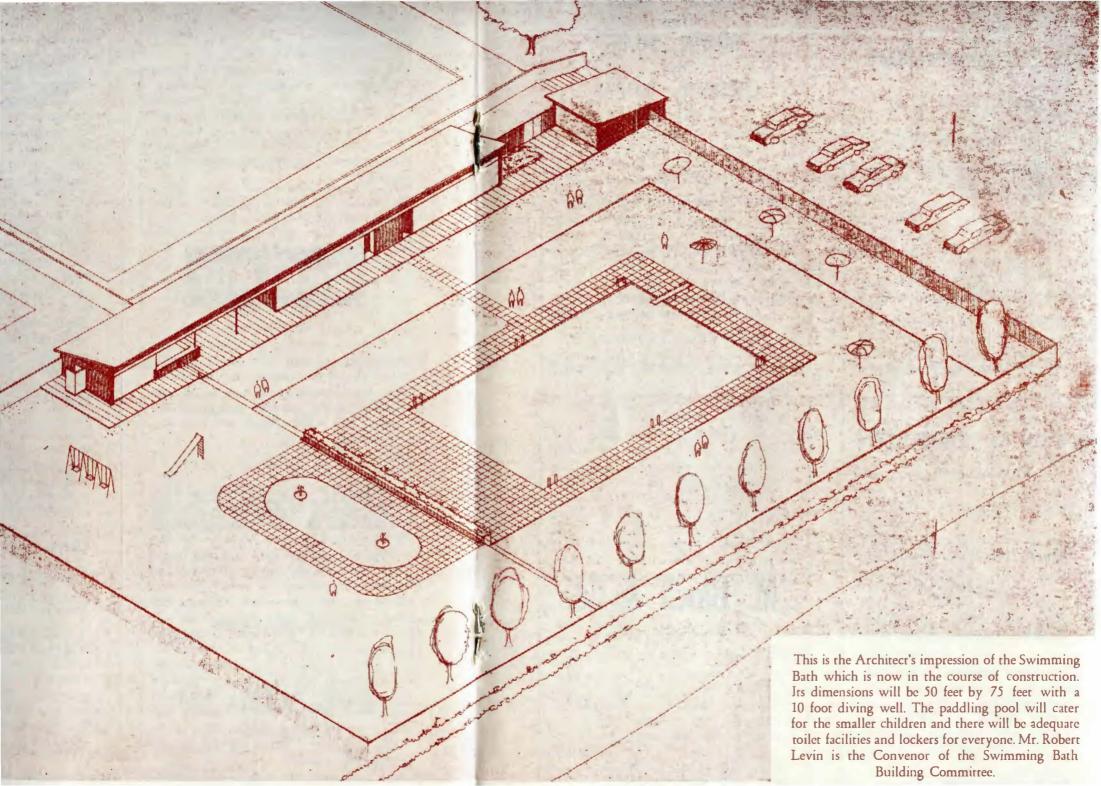

continued assistance and loyal support of our members, I have no doubt that at the end of the next twenty-five years, we will again be able to look back with pride and satisfaction at our past achievements. It is my fervent wish that as many as possible of our present members will still be here in Bulawayo to participate in the celebration of the Golden Jubilee of the Parkview Sports Club, and until then, that they will enjoy happiness, prosperity and continued good fortune in their manifold activities.
